Please note the following information:

The sample vessels are labelled with UN 3308 independent of the gas type. Sample vessels for analysis must not be packed together with other items! The sample must be transported in a complete package (=compressed gas cylinder in a box, in a carton or in a case). The samples remain with us after the analysis. Unless otherwise requested, the recovered (< 1 mbar) sample vessel is sent back.

Pressure vessels must be wedged, tied or fixed in a safe and suitable way so that they cannot move or fall over.
